

ASM Handbook, Volume 14B: Metalworking: Sheet Forming, , 2006, 924 pages, S. L. Semiatin, 0871707101, 9780871707109, ASM International, 2006

This comprehensive reference on sheet metal forming and fabrication provides state-of-art reference information for product and production engineers. Coverage addresses all methods of sheet metal fabrication technologies, selection of equipment and die materials, specification of forming practices for specific alloys, and new techniques for process design and control. This volume provides you with practical reference information on the basic processes of press forming, drawing, bending, spinning, shearing, blanking, and piercing of sheet with additional coverage on forming with bar, tube, wire, shapes, or long parts.
